

Suprema Biometric Device & Nedap AEOS BioStar Integration for Nedap

Suprema's fingerprint algorithm is the highest level of accuracy and authentication speed, and Live Finger Detection (LFD) technology blocks authentication by fake fingerprints. Furthermore, all Suprema biometric devices encrypt the fingerprints and user data, and they also provide enhanced security with a tamper to prevent the device from being separated by physical force.

All of these benefits are available on AEOS system. BioStar Integration for Nedap is a plug-in that integrates Suprema biometric devices with the Nedap AEOS system, and you can connect Suprema devices to AEOS system and register or manage fingerprints.

Now, experience more powerful and accurate access control and time attendance on AEOS system with your true identity.

Add your true identity to Nedap AEOS

Enable Biometrics	In the AEOS system, not only the RFID cards but also the fingerprints are available as credentials. It is able to add up to 10 fingerprint templates per person.
Easy Enrollment and Management	Provides a fingerprint enrollment page directly within the AEOS system. You can enroll and manage fingerprints without any other system.
Network Protection	Reduce the risk of network intrusion in HTTPS environments with secure digital certificates.
Enterprise-level Configuration	Allows to connect and manage up to 1,000 Suprema biometric devices.

To implement this integration, you need:

Operating System

- Microsoft Windows 7(x86/x64)
- Microsoft Windows 10(x64)
- Microsoft Windows Server 2012

AEOS

- AEOS 3.2.x
- AEOS 3.3.1
- AEOS 3.3.2

Suprema Devices

- BioStation A2
- BioStation 2
- BioStation L2
- BioEntry W2

Web Browsers

- Chrome 6x or higher

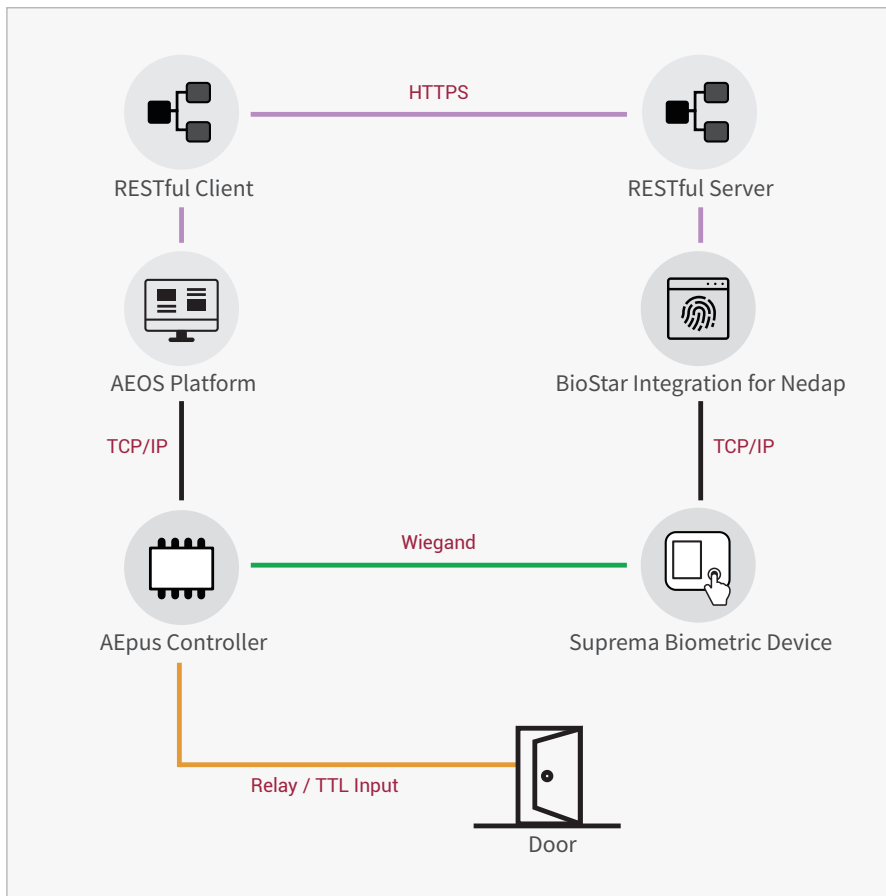

- Internet Explorer 10 or higher
