

SUPREMA CERTIFIED INTEGRATION

Suprema middleware for Gallagher Command Centre

Suprema integration with Gallagher Command Centre allows customers to enroll Suprema's facial and fingerprint authentication devices to the Gallagher Command Centre System. It is seamless integration enabling existing Command Centre customers to expand their RFID credentials to biometrics and use Suprema device as Biometric Access Control solutions.

User friendly interface of the middleware will enable the customer to experience flexible user management and utilize the functionality of Suprema device with the Command Centre.

Enhance security of Gallagher Command Centre access control

Enable Biometrics	Use RFID cards, PINs, and QR code as well as fingerprint and face as credentials
Easy User Management	Real-time user data synchronization among Suprema BioStar 2, Suprema devices and Gallagher Command Centre.
Easy enrollment and management	Enroll user's face and fingerprint data directly from Gallagher Command Centre.
Other features	TOC (Template on card)

To implement this integration, you need

System Configuration
